THE STEAMSHIP CLYDE.—The confidence of shippers seems complete in this splendid iron steamship, which arrived here early Sunday morning, after a quick passage, with a full cargo, and a large lot of buggles and carriages on the upper promenade deck, all of which will be delivered in fair condition.

THE PHILADELPHIA STEAMSHIP LINE,-The superior new iron steamship Leopard is advertised in our issue of to-day to sall hence for the Quaker City on Saturday, making close con-- nection with steamship Norman, at Philadelphia, for Boston. We hope the Leopard will have a large cargo home.

THE LATE TROUBLES IN NEWBERRY .- DOCtor R. K. Scott, Governor of South Carolina, rifile-law speech maker and distributor of weapons to the colored people of the State, is out in a long-winded proclamation, in which he says the gubernatorial department has learned that bodies of armed men have assembled at various points in the counties of Newberry and Laurens, and inflicted outrages upon peaceable citizens, and disturbed the peace generally. Having satisfactorily stated the above, he warns all such bodies to disperse, threatening them with punishment if they do not. It is said that Congressman Hoge is to take command of the militia in Laurens and Newberry Counties.

THE JEWISH NEW YEAR. -To-day is the first day of the Jewish year 5630. Israelites enumerate from the creation. If Usher and Calmet are authorities on the age of the world, then the time that has elapsed since God said "Let there be light," numbers 5870 years. making a difference between Jewish chronology of 220 years. Hobbs asserts that the creation occurred 5411 years before Christ, which, if true, makes the terrestrial sphere upon which we live, move and have our being, at the venerable and ripe old age of 6181 years-651 years older than by Jewish reckoning. The New Year Day commenced, according to the Reform Jewish authorities, yesterday evening, and will terminate to-night. The orthodox Jews observe two days in order to make sure of observing the right day. The Reformers claim that, inasmuch as there are ten days before the day of Atonement, it is unnecessary to observe two days of the beginning of the year, when the first day observed is reckoned among the ten that precede the Atonement. That if you commence to count from the second day, then the day of Atonement must be one day later; and the orthodox Jews, as well as the Reformers, do not disagree as to the day of Atonement.

CITY TAXES .- The attention of persons interested is called to the notice of City Treasurer Thomas, which appears elsewhere. But five instalment due, and the law will be rigidly enforced against all defaulters. Verbum sap.

LOYAL LEAGUE MEETINGS .- Daddy Cain

says that "the League meetings have become

so disorderly and disgraceful that no gentlemen wishes to go to them for fear of being complicated by some altercation or brawl which may take place." CONTINENTAL INSURANCE COMPANY OF NEW YORK .- This company has declared a dividend of sixty per cent. on earned premiums of parti-

cipating policies for the year ending July 1, 1870, which will be paid in scrip bearing interest at six per cent. per annum, at the office of the agents, Messrs. W. B. Heriot & Co., No. 54 Broad street.

ST. PAUL'S CHURCH, RADCLIFFEBORO'.-The Rev. James H. Elliott, the eminent Episcopal divine who has accepted the unanimous call of this congregation, returned to his native city More Time.—The time for the payment of on Friday, after an absence of several years. He entered upon his charge yesterday morning, and a large congregation assembled to greet him. His sermon was an exceedingly eloquent and interesting one.

CRUMBS .- Daddy Cain's convention meets next Wednesday. The columns of the Missionary Record are devoted to abuse of Congressman Bowen and

his supporters. A committee will call upon our liberal citizens this week to procure assistance for the

Charleston Rifle Club.

EXCURSION TO BEAUFORT .- The steamer Starlight left this city for Beaufort yesterday afternoon, having on board Judge Carpenter, General Butler, Hon. LeRoy F. Youmans, mass meeting announced to be held on Mon-Hon. M. P. O'Connor, and some sixty or day next, be postponed until the 11th of next seventy other prominent gentlemen of the Union Reform party. Muller's band was also on board, and, as the steamer moved from the wharf, commenced a lively and stirring air, while the friends of the party who had assembled on the wharf gave three rousing cheers for Carpenter and Butler.

A RADICAL MASS MEETING was held at Blackville Saturday. It was gotten up by Senator Leslie, but was taken out of his hands by the Barnwell and Alken clique, who did not even wish him to speak, and denounced him as a Reformer, Ransier, Elliott, Leslie, DeLarge, Rowen and others spoke. Before the meeting concluded, there was general confusion, the crowd dividing itself into cliques, and each one cheered for its favorite-Bowen, Elliott, DeLarge or Leslie, as the case might be. The result of the meeting will cause the putting out of a new county ticket, in opposition to the ticket of the Alken-Barnwell clique.

THE COUNTY TREASURER AND THE CHARGES AGAINST HIM .- THE NEWS has mentioned that an agent of Governor Scott was sent here to examine the books of Mr. Wm. R. Stoll, the county treasurer. Daddy Cain, through whose influence it is believed Mr. Stoll secured his appointment, is very indignant, and says that certain gentlemen who have been buying up county treasury checks, at a discount of ten and twenty-five per cent. till they have filled their pockets with thousands of dollars, are now foremost in charging Mr. Stoll with corruption, when they, too, have offered large bribes to induce him to pay their bills first." In addition to his comments, Cain presents a "correct statement of the amounts collected and paid out by the treasurer," as follows: September 22d, 1870. Amount county tax to be paid for 1869 as per the tax books, \$120,317 76; amount of county tax paid in from the 1st July to this date, \$69,709 48-leaving not paid, \$50,608 28. This is for the city alone.

THE BURAL CAROLINIAN FOR OCTOBER. -The present number of the Rural Carolinian commences the second volume, and gives promise that it will equal, if not surpass, its predecessor. Colonel D. Wyatt Aiken continues to show himself one of the strongest thinkers and writers, as well as one of the most successful planters among the agriculturists of the South. His article in this number on Cattle for the South is replete with sound sense and practical suggestion. To give even a brief sketch of the good things in this number would take more space than we can spare, but we cannot refrain from mentioning the following, all of which should be carefully read by every Southern planter, viz: "Beet Culture," by Thos. G. Clemson; "Experience in Farming," by A. M. Latham, (especially noticeable as showing that wheat can be profitably cultivated at the South;) "Coffee and Coffee Culture;" "Farm Accounts;" Bural Review;" "Texas Istle." by Al-x. S. Macrae, of Liverpool, Eng.;

and "Labor," by Hon. Alfred Huger. The Entomological and Home Departments are worthy of special notice, as being calculated to make the magazine of more general interest to all members of the farmer's family. Take the number, all in all, the contents are as creditable to the managing editor, Colonel D. H. Jacques, as the typographical appearance is to the publishers, and that is saying a great

We are requested to state that the mailing for the country circulation of the Rural Carolinian was concluded on Saturday, and that city subscribers will be supplied to-day, those who have postoffice boxes, through the mail, and others at their places of business.

REFORM CLUB OF WARD 7 .- The working committee of Ward 7, Reform Club, are requested to meet, punctually, at half-past 7 days more remain for the payment of the last o'clock, this evening, at their hall, in Nassau street.

AN AURORA BOREALIS, splendid for this latitude, made its appearance on Saturday night, lasting several hours, and fading away at halfnast 10 o'clock. It occupied the horizon from N. N. W. to E. N. E. A broad horizontal belt of white light rested on the horizon; above this was a narrower belt of pale green. From these belts, blood-red perpendicular bands, of variable intensity, shot up towards the zenith; three of these bands west of north, and the other two north of east. The effect was striking enough to cause an alarm of fire about 10 o'clock.

The light was visible last evening, but was very faint.

THAT CARGO OF RAILS .- Diligent inquiry shows that no vessel to arrive at Charleston from Europe has rails for the Macon and Augusta Road. Savannah, then, is the alternative port of entry; and while we cannot see the wisdom of consigning material for the completion of a rival road for transportation over the railroad whose trade is to be affected at the very busiest season of its freight year by the delivery of rails for the effective working of the new road, still this strange course may have been adopted in this instance. Assuming, then, for the sake of argument, that the four hundred tons of ralls, as alleged, have been shipped, and that Savannah has been selected as the port of entry, let us inquire what the chances are under these unbusiness-like circumstances. The business community of Macon have been, for years, under heavy tolls to a single rail line. They have been, for ten years, struggling for free trade. After all sorts of difficulties and money outlays, they are now within "five miles of rail" of the realization of their hopes; but it turns out that the 400 tons alleged to have been provided are overdue for six weeks. Inquiry develops that it has not been shipped to this, its natural port. The inference, if shipped at all, points to Savannah, and, if to Savannah, the only means of transportation is by a road whose income may be affected by the laying down of this 400 tons of rail. Assuming the iron entered at the Savannah Customhouse, say by Christmas (?) how many tons per week will find freightage over the Central Road? And may we not reasonably calculate, from the experience of the past, that one carload of seven tons will be the maximum weekly delivery? We think Macon will have to either ussist her-

self, or stay under hack another cotton year. The essential feature, the keystone of the whole affair, seems to be a premeditated procrastination, which will last a good while yet, unless the placid, but very stagnant waters are roughly stirred. Wanted, at once, 400 tons old rails!

HALF ALIVE .- IT IS A SAD THING to pass through life only half alive. Yet there are thousands whose habitual condition is one of languor and debility. They complain of no speci fic disease; they suffer no positive pain, but they have no relish for anything which affords mental or sensuous pleasure to their more robust and energetic fellow-beings.

In nine cases out of ten this state of lassitude and torpor arises from a morbid stomach. Indigestion destroys the energy of both mind and ody. When the waste of nature is not supplied by a due and regular assimilation of the food, every organ is starved, every function inter

Now, what does common sense suggest under these circumstances of depression? The system needs rousing and strengthening; not merely for an hour or two, to sink afterward into a more pitiable condition than ever (as it assuredly would do if an ordinary alcoholic stimulant were resorted to.) but radically and permanently.

How is this desirable object to be accomplish ed? The answer to this question, founded on the unvarying experience of a quarter of a century is easily given. Infuse new vigor into the digestive organs by a course of Hostetter's Stomach Bitters. Do not waste time in administering tem porary remedies, but wake the system up by recuperating the fountain-head of physical strength and energy, the great organ upon which all the other organs depend for their nurture and sup-

One had tried blue pills, another extract of dandellon. another almost every variety of purgatives. In fact, we had made apothecaries' shops of our insides; but nothing had done us any good. I said I wondered if your PLANTATION BITTERS would help us any. After some talk we concluded to try it, and meet again at the same place that day nonth to compare notes. We did so. It was a jovial meeting, I can tell you. We scarcely knew one another. Each had gained flesh; each reported a good appetite, sound sleep, an easy stomach and a regular habit of body. AWAY WITH SPECTACLES. -OLD Eyes made new, easily, without doctor or medicines. Sent postpaid on receipt of 10 cents. Address Dr. E. B. FOOTE, No. 120 Lexington avenue, New York. STA GRAND EPOCH IN SCIENCE. From the time when, in 1834, Dr. RUGGE discov-

ered "Carbolic Acid" and its extraordinary medical effects, nothing in the history of Medicine has equalled it. Largely used by the French phys! cians in treatment of consumptive and scrofulous diseases, it was introduced by the Court Physician of Berlin, MAX ERNST HENRY, into Prussia, and from thence to the United States. No thing else of the present day can equal HEN-RY'S SOLULION OR CARBOLIC CONSTITUTION RENOVATOR. Patients get better after only one dose has been taken, and we cordially recommend it to the public.-[Editor "Argus." jan17 lyr
